Good morning, Sir.

First of all, thank you for giving me an opportunity to introduce myself. My name is Akash Pathak. I am from Bilaspur Chhattisgarh. I'm hardworking B-Tech student in department of computer science and engineering with overall CGPA 8.79 from LCIT Bilaspur.

I completed my training in core java training from Naresh IT Hyderabad also from Internshala where I get Top performer badge. I also completed a full-stack web developer course from Udemy.

I have excellent interpersonal skills collaboration with others and I'm passionate about relationship-building.

My short-term goal is I got placed in a reputed company where I can improve my skills. Whereas my long-term goal is I get a respected position in a reputed company.

My hobbies are playing cricket. About my family, we are 4 members.

Thank you, sir.

My strength is, I am a quick learner, self-motivated and hardworking person. My weakness is, I also speak a little bit fast so for that I am practicing it on the daily basis.

As a fresher, I am looking for a good platform to start my career. Your company is reputed and established and I believe that your company will help me to enhance my skills and gain knowledge. A job in IT fields can help you learn best practices for different languages in different fields, managing and developing a website. I want an opportunity, I think your company will give me an excellent opportunity to enhance my skills, and help me to gain practical knowledge and experience. I am looking for a platform where I can give my best. And work hard with a lot of dedication. I always love to handle new challenges in upcoming future. Although I don't have any work experience if I get a chance, I will enhance my ability & skills and I hope. It will be a great pleasure working with you.
